Product architecture **27-28**

**a material that has become popular with Bulgari,
it has bright colors and translucent to light like glass with gade effect,
it is very popular material at the moment and there are few similar styles
on the market it makes space, door, headsignes etc,..
more fashinable and gives luxurios feeling to the place**

product description

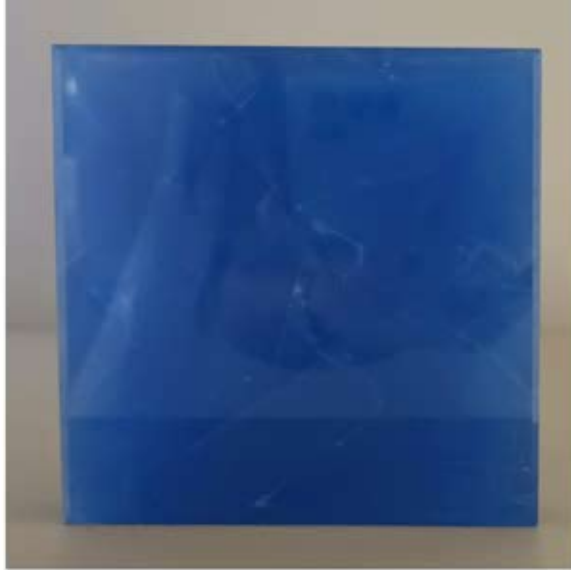

Jade glass belongs to glass artificial stone,
It is a decorative material sintered from recycled glass at high temperature
Process: thickness-polishing - cutting - edging - cleaning - packaging

"Product Positioning"

Jade glass is fashionable and advanced in appearance, exquisite in texture, full of moist sense and excellent in light sense. It simulates the water and exquisite of jade and gives people a noble and luxurious visual effect. It is extremely bright for decoration, so many international big brands and luxury brands will use it for decoration

"Product Positioning"

The popularity of jade glass has greatly increased people's attention to environmentally friendly and sustainable materials. Ordinary glass bottles are recycled and processed to produce advanced and beautiful materials like jade and jade, which are extremely artistic. Due to its high luxury positioning, it is rarely used in space applications, but also reflects its unique taste.

sample cases

Green environmental protection, no radioactive pollution
Inorganic material, no aging, no fading
It can be used outdoors or indoors
Service life five years
Light transmittable
Anti freezing, suitable temperature -10~40°C
Mohs hardness: Level 6
0 water absorption, easy to clean
Affected by raw materials, different batches have color difference
Fire protection Class A1

installation

(1) wall dry hanging installation

Take jade glass pearl white product as an example,
the schematic diagram of common installation is as follows:

This installation method is also the common construction method of glass curtain wall.

If the background wall color and pearl white deviation, can be in advance of the pearl white product on the back, evenly coated with white glue, such as white silicone structural glue, white stone glue or white paint, to avoid color difference.

Notes are as follows:

(1) Before the product leaves the factory, it will be checked strictly in accordance with the layout order of the drawings, and the jade glass panel will be affixed with corresponding labels. Therefore, the construction party must install it in accordance with the drawing number and the label order on the jade glass panel to ensure the overall installation effect.

(2) The background color requirements of installation: jade glass products have light transmission, if the construction and installation of improper, will produce color difference, affect the visual effect. Therefore, the wall background color must be consistent with or close to the product color. Especially in the installation of jade glass light color products, such as pearl white products, the background color or adhesive paste in the installation must be white, so as to well present the unique beauty of pearl white products, otherwise it will produce serious consequences of color difference.
